Task 1.1 Getting Started with Your
Front End Course

Edit your site for mobile.

what makes me unique?

I am an experienced visual arts educator.

- With over 10 years of creative & collaborative education experience in visual art and design, I have mad soft skills!
- I am a master presenter and content creator, with dynamic communication, planning & organizational abilities.
- Passionate about designing innovative, immersive, and enjoyable experiences, I care deeply about the user journey and genuinely seek to improve user experiences for all walks of life.

I met Nelson Mandela

- Growing up in South Africa enhanced my unique worldview and ability to create designs accessible to diverse communities.

I bungee jumped the highest bunjee in the world.

- I am courageous, tenacious, and willing to take on challenges that arise with a calm sense of confidence & expectant vision.

I excel at creating compelling user experiences through detailed planning, research, and innovatively striving to make every user feel heard.

Project Blurb: Snowcast

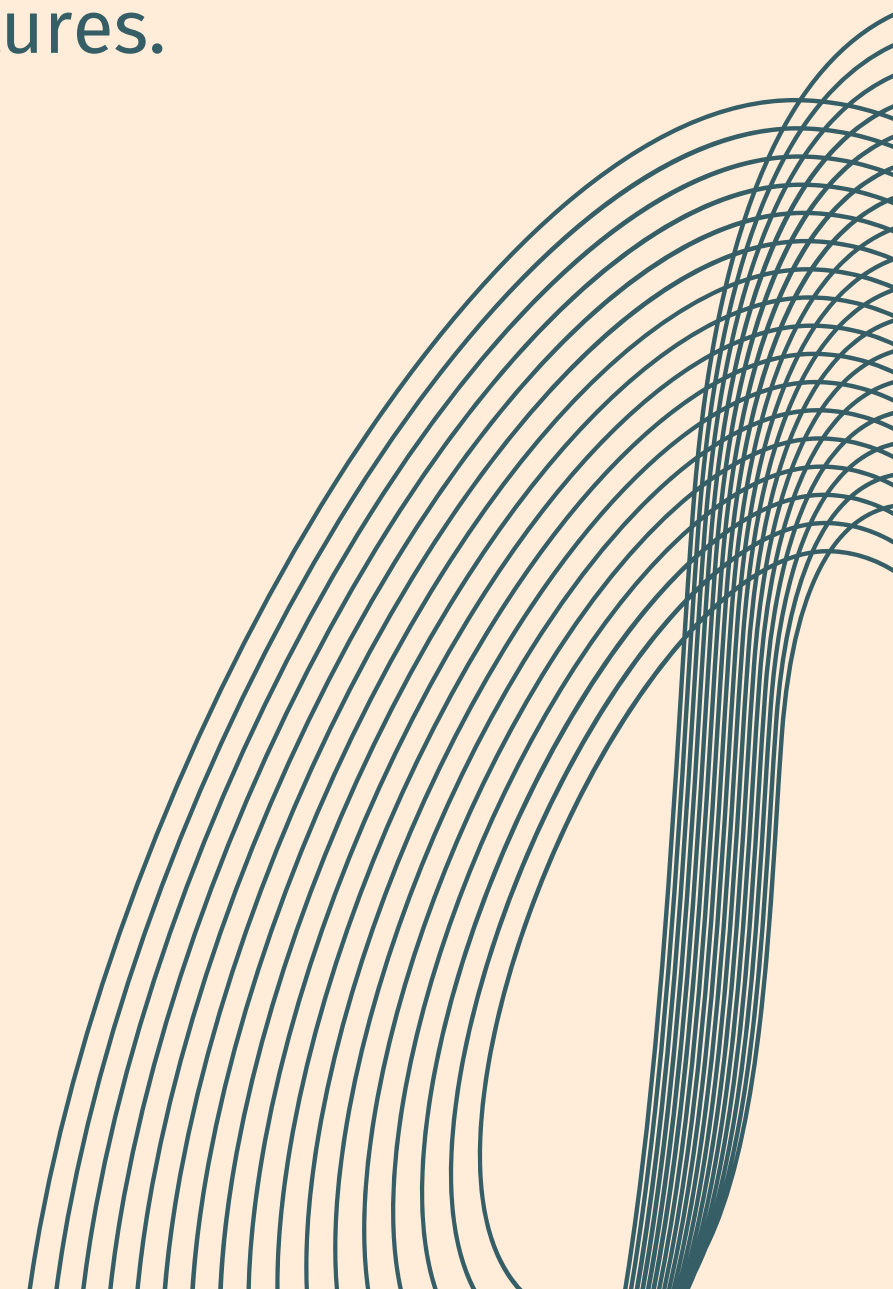

- As a student project, I navigated and achieved all aspects of the project brief in creating the Snowcast clickable prototype.
- Snowcast prepares skiers & snowboarders for incredible experiences by providing detailed weather forecasts, accurate snow conditions, and live webcam feed.
- Snowcast cuts down the number of apps snow sports enthusiasts need to check before they ski or ride from 4 to 1 making Snowcast your one-stop app for epic snow adventures.

Reset Online Parent Summit

Project Blurb: Online Parent Summit

- Through my UX internship, I designed and implemented the landing page for the Online Parent Summit as well as using the Design Thinking process to build the online conference itself.
- The conference featured 11 speakers, 35 resources, and included multi-media content.

Project Blurb: Snowcast

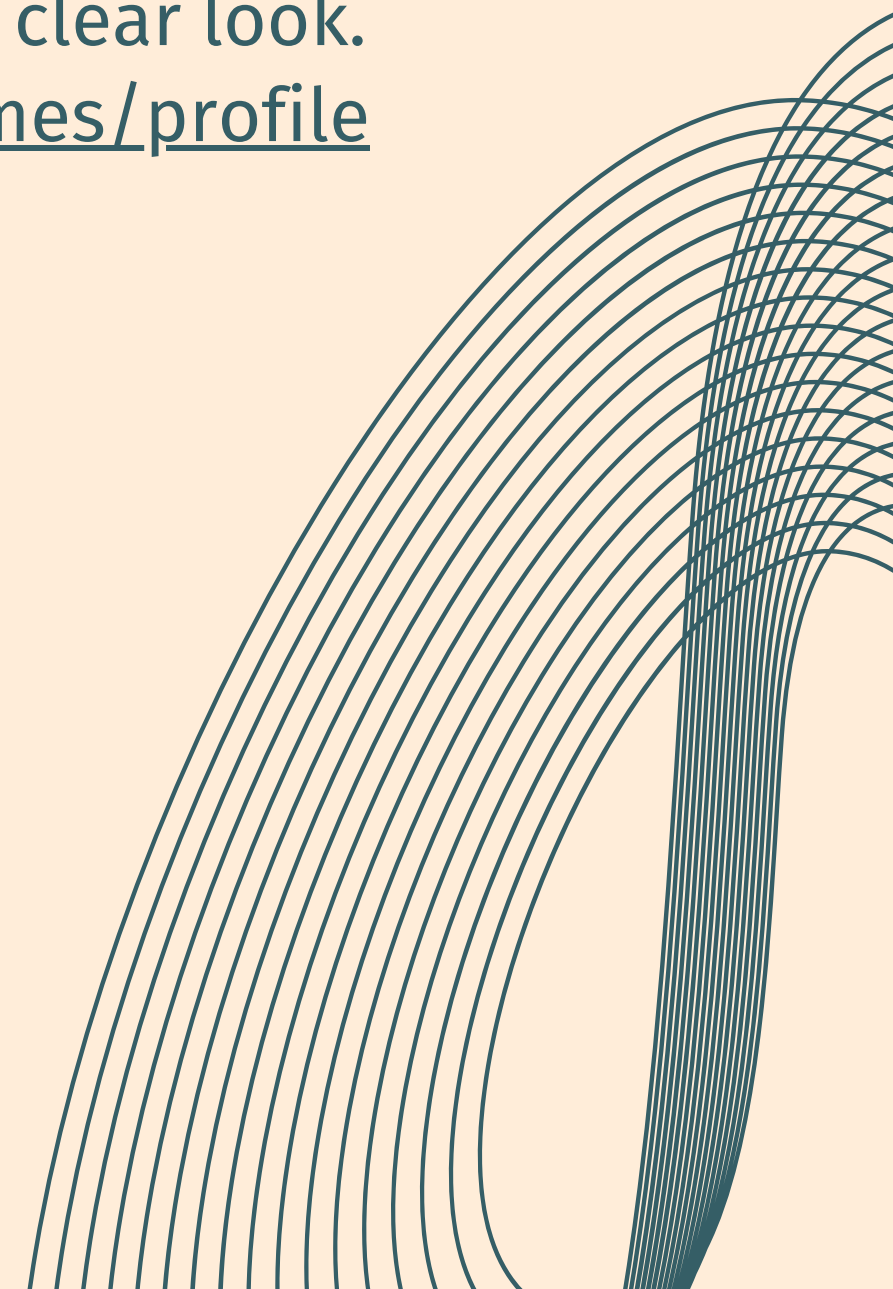

- I created this website in 2 days in order to get a job application turned it. I didn't have time to mess with color and went with black/white/navy/light grey and the light blue standard Wix button color for now.
- I may revisit this, but I think it gives a crisp, clear look.
